Why is Woman-Only Training Necessary

Seminar about women empowerment and business after 2021

Emerging markets in Asia are starting to create enormous opportunities for women in business. Diversity also becomes important parts for company to create innovation. However do we really need to start any education program that exclusively targeting women?

what could be the benefit and challenge for the organization?

This seminar will cover the benefit of such program and effective way to get support from your organization in order to develop woman capacity and capability.
